KEY SKILLS

Web App Development	Databases	UI Libraries
Software Engineering	Agile Practices	Foundations of SDLC
Attention To Detail	Problem Solving	Teamwork and Collaboration

EDUCATION

Software Engineering Technology (Co-op) Advanced Diploma   Sept. 2022 - April 2025
Centennial College, Toronto, ON   *GPA: 4.2/4.5 (A+)*

Focus Areas:
Web Application Development | Advanced Database Concepts | Java Programming | Web Interface Design | Unix/Linux OS | Client-Side Web Development | Software Systems Design | Object Oriented Programming

ACADEMIC PROJECTS

- **Web Design:** Created a website with a captivating slideshow using JavaScript and jQuery.
- **Web Application:** Designed and developed a Windows-based, object-oriented hero selection application using C# and Visual Studio WinForms, allowing users to create, manage, and view heroes with their attributes in real-time.
- **Web Application:** Developed a robust login form with input validation, implemented product selection, shopping cart functionality, and real-time tax calculation based on the user's city, using JavaScript.
- **C# Program:** Developed in Visual Studio and utilized classes and objects to create a song playlist management system, parsing data from a .txt file to set attributes including song name, singer, genre, and runtime, enabling user-friendly sorting and organization.
- **Database Design:** Designed and implemented a SQL database architecture to optimize data management and enhance operational efficiency for a sophisticated online retail establishment.

WORK EXPERIENCE

Customer Service Representative   Tim Hortons, Toronto, ON   June 2022 - Jan. 2023
- Processed over 200 customer orders daily with accuracy, ensuring prompt, reliable and friendly service.
